Onboarding Process & Timeline

Onboarding for Success.

Agent Deployment and Monitoring Start:

- All we need is one agent deployed and some info!
- [Rapid7 Insight Agent Deployment Instructions](#)
- Allow listing the Rapid7 agent in your Endpoint Protection Platform
- We Need Some Info:
 - Main External Domain
 - 3 points of contacts and their emails and/or cell phones
 - Your Security Email Distro(optional)
 - Expected Asset Count (if different from licensed)

You are moments away from being monitored...

Onboarding Plan: Pre-Implementation Prep

- Next we are doing pre-implementation prep. Proper pre-implementation prep ensure your Product Consultant can be focused on advanced configuration, enablement and troubleshooting.
 - Requirement: Read the [MTC Deployment Handbook](#)
 - Please track your progress. [Progress Tracker](#)
This sheet will be critical information for your Product Security Consultant during your scheduled implementation time. Between now and that time, your SE is an excellent resource to ask technical questions.

Important info for you:

- **HOSTED INSIGHTVM CONSOLE IP: 35.156.20.217**
- **HOSTED INSIGHTVM CONSOLE URL: <https://helping-ghoul.mtc.rapid7.com>**

Service Launch Video:

Service Launch Video

- The Rapid7 SOC will start monitoring any assets that go into implementation after 24 hours of this call.
- We recommend that you watch our [Service Launch Video](#) so you can understand what the benefits are.
 - [Slide Deck](#)

Key Takeaways

- Rapid7 Agent best practices
- Tiered Alert Response Explanation
- How to effectively communicate with Rapid7
- Review of Detections
- Deception Technology Overview
- Active Response Automated Containment
- How we use Logs in Detections
- Reporting

How to Engage with your Managed Service:

- Customer Advisor communication will be through the portal or scheduled cadence sessions
- For action related requests, use the services portal and create a managed case
- If you are multi-org and do not have the managed portal, email mdr@rapid7.com
- For product related break/fix help, use the services portal and create a support case
- If you believe that you are breached, you can contact our emergency hotline:

US: +1 844-777-7637

UK: +44 800-088-5859

SG: +65 800-852-3321

AU: +61 2-4734-7032

- SOC Outbound Phone Number(good one to save): 617-906-7121

Additional Resources:

Training:

- [Monthly InsightIDR Workshop](#)
- [Monthly Insight Agent Kickstart Workshop](#)
- [MTC IR Planning Video](#)

Other Resources

- [Product Status Notifications](#) - subscribe for notifications about product outages
- [Release Notes](#) - reference for all product update information
- [Emergent Threat Blog Series](#) - subscribe for updates to the latest threats we're monitoring
- [Rapid7 Forum](#) - connect with other customers using Rapid7's products & services
- [Rapid7 Extensions Library](#) - find all of our integrations, plugins and workflows
- [Rapid7's Blog](#) - cybersecurity resource with latest vulnerability news

Solution Implementation Schedule

Purchased Solution: MTC Advanced

MTC Solution Component	Scheduled Date	Start Time	Duration	Assigned Security Consultant
MDR Session 1			1 hour	
IVM			1 hour	
MDR Session 2			1 hour	
Active Response (ICON)			1 hour	

Next Steps:

Your CSM will schedule a regular cadence with you.

Scheduling your Solution Implementation Sessions

Check for scheduling links from CSM

Continue Agent Deployment & Requirements to be ready for implementation sessions.

Collector, Service accounts, etc

Monitoring within 24 hours

Today's deployed assets will be in monitoring. As your start your implementation engagements, more assets will be put into monitoring covering more of your environment.

provide the names, emails, and phone numbers

primary and secondary contacts or distribution lists who should be reached out to in the case of a security incident.

Thank you.
